Sea to Fly Drone has been delivering premium real estate media from Vancouver to Pemberton, since 2023.

MLS Cinematic Videos

Showcase your listings with high-quality, indoor/outdoor, stabilized footage which highlight all the details. Videos can be tailored to include: voiceovers, custom realtor introductions or, walkthroughs. Filmed using cinematic drone camera and DSLR with stabilizer.

Adding your personal touch connects you with buyers to seal the deal!

Drone Tours - Exclusive to Sea to Fly Drone

Using cutting-edge FPV drone technology, we capture seamless, continuous footage — flying effortlessly from exterior to interior creating a dynamic, immersive experience that captivates viewers and brings properties to life.

2D/3D Floor plan

Floor plans are essential for attracting buyers. They showcase how rooms connect and help buyers visualize the space, imagining the flow through their daily lives.

Adding a 3D floor plan enhances the visual understanding. We offer dollhouse-style digital dioramas including staging with furniture layouts. Buyers will virtually walk through the space and can easily picture themselves living in it.

Including this in your open house brochure will make your listing stand out!

Sylvain Epitalon
Director
Certified TC Drone operator

Twilight editing

Twilight photos enhance a property's appeal by showcasing it in the soft, warm light of dusk.

Create an inviting, luxurious atmosphere to highlight architectural features and outdoor spaces and capture the essence of the home.

Virtual staging

Virtual staging is a cost-effective way to transform empty spaces by digitally adding furniture, helping potential buyers better visualize the scale of each room and imagine how the space could suit their future lifestyle.

Fast Turnaround - 7 days / week

 **24-48 hours**

 **48-72 hours**
